I located the article below on the EPA's website and I would like to obtain more information about this incident. I am interested in where specifically this dumping was in Baldwin and Mobile counties; if it was remediated; and the specific details about the chemicals and wastes that were dumped. I contacted the EPA by phone and was told to file a FOIA for more info. The info will be used for educational purposes.

Waste Disposal Company Owner Sentenced for Illegal Dumping in Alabama  
 Release Date: 09/01/2004  
 Contact Information: Contact: Rich Hood 202- 564-4355 / hood.rich@epa.gov

(09/01/04) Don Milton White, a private contractor from Mobile, Ala., was sentenced to six months in prison, three years probation and \$20,000 in restitution to the U.S. EPA. In May, White pleaded guilty to two counts of violating the Resource Conservation and Recovery Act. White contracted with the Escambia County Utility Authority in Florida to transport and dispose of wastes from its wastewater treatment facility. White illegally dumped the wastes, which included oils, tar, paint wastes, hydraulic fluid, solvents and other mixed materials, at separate locations in Mobile and in Baldwin County in Southern Alabama. Of the hundreds of gallons of wastes White illegally discarded, some contained highly corrosive liquid that is regulated as hazardous waste under federal law. Dumping waste oils, fluids and solvents on the ground can create a contamination hazard for humans and wildlife. Sentencing took place on Aug. 19 in the U.S. District Court for the Southern District of Alabama in Mobile. The case was investigated by the Jackson, Miss., Office of EPA's Criminal Investigation Division, EPA's Emergency Response Branch and the FBI. It was prosecuted by the U.S. Attorney's Office in Mobile and the Environmental Crimes Section of the U.S. Department of Justice in Washington, D.C.

Dear FOIA officer of Environmental Protection Agency:

Hi, this is Yongjin, a doctoral student studying public policy at the University of Southern California. I am currently doing research on the three previous government shutdowns, FY2014, FY2018, and FY2019.

Under the Freedom of Information Act, 5 U.S.C. Â§ 552, I am requesting contingency plans that contain information on the planned number of furloughs within each component of Environmental Protection Agency (e.g., Bureaus, Administrations, Offices, etc.) prior to the three events.

I noticed that there are contingency plans updated to the latest date in the OMB website, however, what I am searching for are those that were prepared right before shutdowns of FY2014, FY2018, and FY2019.

The purpose of my request is to compare the "planned number" of furloughed employees with the "actual number" at the event.

Therefore, I also request the number of employees furloughed in each component of Environmental Protection Agency (e.g., Bureaus, Administrations, Offices, IRS, etc.) during those three shutdowns.

I am fully aware that there might be employee privacy issues, thus, I require only "the number" rather than individual information.

If there are any fees for searching or copying the records, please let me know before you fill my request.

If you deny all or any part of this request, please cite each specific exemption you think justifies your withholding of information.

Notify me of appeal procedures available under the law.

If you have any questions regarding this request, please contact me.

Sincerely,

Yongjin Ahn

Pursuant to the Freedom of Information Act, I hereby request the following records:

The robots exclusion standard specifies how to inform a search engine or web robot about which areas of a website should not be processed or scanned. According to the robots.txt page on hhs.gov (<https://www.epa.gov/robots.txt>) several webpages have been de-indexed. Therefore, I hereby request the following records

Any emails, memos, reports, or other written or digital communications, sent or received by any employee of the agency between January 1 2010 and the date on which this request is processed which contains any mention of "robots.txt", "de-indexing" or "de-indexing" webpages.

Request for Fee Waiver

We request a waiver of fees associated with processing this request for records.

As a full-time reporter for Gizmodo, I am a representative of the news media. Gizmodo is an online news organization that gathers information of potential interest to a segment of the public, uses its editorial skills to turn the raw material into distinct work, and distributes that work to the public free of charge.

Disclosure of the information sought by Gizmodo is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of government and law enforcement. The information sought is not primarily in the commercial interest of the requester.

Regardless, Gizmodo is willing to pay fees for this request up to \$50 without prior approval. If you estimate that the fees will exceed this limit, please notify me first.

Good afternoon,

Under the Texas Public Information Act, Â§6252-17a et seq., I am requesting a copy of the EPA's FYR Addendum for the Alcoa (Point Comfort)/ Lavaca Bay Superfund Site cleanup in Calhoun County that is set to be completed by Sept. 30, 2019.

I would also like to request a waiver of all fees in that the disclosure of the requested information is in the public interest. I am an environmental reporter with the Victoria Advocate and my request is strictly related to news gathering.

The Texas Public Information Act requires that you "promptly produce" the requested records unless, within 10 days, you have sought an Attorney General's opinion. If you expect a significant delay in responding to this request, please contact me with information about when I might expect copies or the ability to inspect the requested records.

If you deny any or all of this request, please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to me under the law.

Thank you in advance for your time and please feel free to give me a call if you have any questions about this request.

Best,

1. All filings or submissions made by Grant Chemical or Ferro Corporation (for the period 1968-2008) pursuant to the Inventory Update Report. One example is attached, from 1986, in case it helps the EPA's search. If any supporting or other documents were filed with the IURs, we would be interested in those as well.

2. Any other filings or submissions made by Grant Chemical or Ferro Corporation (for the period 1968-2008) pursuant to TSCA.

3. If there is a way to search for or hone in on chemical-specific documents we are interested in any filings or submissions made by Grant Chemical or Ferro Corporation (for the period 1968-2008) regarding 1,4-dioxane (123-91-1). E.g., regarding Grant Chemical's/Ferro Corporation's production or export volumes for the chemical; manufacturing of the chemical; sales, marketing and customers for the chemical; and any warnings (MSDSs, labels, etc.) or research with respect to the chemical.

4. All filings or submissions made by Grant Chemical or Ferro Corporation (for the period 1968-2008) pursuant to or as part of the EPA's High Production Volume program regarding 1,4-dioxane.

We are conducting a site assessment on a property that is located adjacent to and presumed hydrogeologically down-gradient from Grenlo INC. Plant 2, located at 2501 COUNTY ROAD 4 NW ROCHESTER, MN 55901. This site came up in our database report as a CORRACTS facility ( ID MND980501167), with the notation that a release had occurred at the property and groundwater had been impacted in 1997. No further information was given. In addition, further detail is not available on MyProperty or the RCRAInfo page for this site. We are requesting any and all files associated with the corrective actions that occurred at this property so we can determine whether our subject property has been impacted. Thank you . EPA-R7-2019-009040	Nick Jusino		The federal EPA ECHO database reports an enforcement action against Clean Harbors Environmental Services Inc. at 2247 S Highway 71, Kimball, NE 69145 (FRS ID: 110041638458) which resulted in a penalty I believe to be federal. I do not have the case number but the settlement/action date was 6/10/2010, and Clean Harbors was fine \$150,000. The nature of the violations (i.e. CAA, CWA, RCRP) is unclear, but per ECHO this was the most recent penalty issued at the site. I request copies of any Complaints outlining the alleged violations, as well as any Consent Agreements and Final Orders outlining the conclusions of the case, along with the calculation worksheets of the financial penalties. I prefer records in electronic format. If the cost should exceed \$100, please contact me before proceeding.	9/19/2019

EPA-R4-2019-009037	Nick Jusino		The federal EPA ECHO database reports two enforcement actions against Clean Harbors Florida LLC at address 170 Bartow Municipal Airport, Bartow, FL 33830 (FRS ID: 110000365033) which resulted in federal penalties in the last five years. In case no. 04-2018-4012, bearing settlement/action date 8/07/2018, Clean Harbors was fined \$11,000 for RCRA violations. In case no. 04-2016-4007, bearing settlement/action date 7/05/2016, Clean Harbors was fined \$15,000 also for RCRA violations. Regarding both cases, I request copies of any Complaints outlining the alleged violations, as well as any Consent Agreements and Final Orders outlining the conclusions of the case, along with the calculation worksheets of the financial penalties. If you have record of any additional formal cases or enforcement actions in the last five years, I would also request the same materials (i.e. Complaints, Consent Agreements, and calculation worksheets) for that/those case(s). I prefer records in electronic format. If the cost should exceed \$100, please contact me before proceeding.	9/19/2019

Re: Freedom of Information Act Request

Dear Freedom of Information Act Officer:

This is a request under the Freedom of Information Act.

I request that a copy of documents containing information on the calendar or calendar entries of acting Assistant Administrator of the Office of Air and Radiation Anne Idsal, from Aug. 1, 2019, to Aug. 30, 2019.

These documents could include, but not be limited to, itineraries, scheduling documents, or correspondences detailing meetings in person, over the telephone, or online including a list of each meeting's attendees and any correspondences on what was discussed. For calendar entries included in Outlook or similar programs, please produce the records in "memo" form to include all invitees, notes, and attachments.

In order to help to determine my status to assess fees, you should know that I am a reporter with Bloomberg Environment, and this request is made as part of news gathering and not for a commercial use.

I am willing to pay fees for this request up to a maximum of \$25. If you estimate that the fees will exceed this limit, please inform me first. Please contact me if you have any questions.

Thank you for your consideration of this request.

Sincerely,

Amena H. Saiyid

To whom it may concern.

This request pertains to any information maintained by the United States Environmental Protection Agency regarding any pumping well records included within the area (Calvert City, KY) detailed by the yellow dotted lines on the attached map. Specifically, we are interested in any records about the location, construction, and pumping duration or frequency associated with wells. In hopes to streamline the process, EHS Support has compiled a list of wells located within the new domain (attached) that have been pulled from the Kentucky geologic map information service website. The preferred method to receive any FOIA documents would be email at [scott.kloubec@ehs-support.com](mailto:scott.kloubec@ehs-support.com). Please feel free to reach out if any additional information is required. Thanks

Pursuant to the Federal Freedom of Information Act, 5 U.S.C. 552, Cable News Network, Inc. ("CNN") requests access to and copies of (in pdf form, where possible) a list of every position within each EPA branch and office that has been vacated, whether by firing or quitting, since January 1st, 2017. This should include any job that has been vacated, even if the position no longer exists. Please include the dates of termination/formal notice of resignation, and full title of position.

CNN requests that fees be waived because release of the information is in the public interest and will contribute significantly to public understanding of government operations and activities. Nevertheless, CNN agrees to pay reasonable duplication fees for the processing of this request in an amount not to exceed \$50. Please notify me prior to your incurring any expenses in excess of that amount.

If CNN's request is denied in whole or part, we ask that you justify all deletions by reference to the specific exemptions of the Act. CNN will also expect you to release all segregable portions of otherwise exempt material. CNN reserves the right to appeal your decision to withhold any information.

As I have made this request in the capacity of a journalist and this information is in the public interest and has timely value, I would appreciate your expediting the consideration of this request in every way possible.

I would appreciate your communicating with me by telephone (202)374-1211 rather than by mail, if you have questions regarding this request. Thank you for your assistance.

Sincerely,

Audrey Ash

			Dear Sir/Madam: Pursuant to the Freedom of Information Act, 5 U.S.C. Â§ 552, and the Environmental Protection Agency (EPA) regulations, 40 C.F.R. Chapter I, Subchapter A, Part 2, the purpose of this submission is to request a copy of all communications maintained by EPA Region 6 regarding Intercontinental Terminals Company (ITC) and the discharge of hazardous materials and oil into the Houston Ship Channel (including Buffalo Bayou and Tucker Bayou) and surrounding waters (HSC) from March 17 until September 16, 2019 (the Incident). As of Oct. 29, 2019, I provide the following clarification: I would like to receive a denial log of any withheld information and an index of any documents being withheld under Exemption 4 as proprietary business information (PBI). I confirm I am agreeable to limiting this request to the email/Relativity search to what has already been conducted and currently under review or available in FOIAonline for the Intercontinental Terminals Company incident.  These documents should include but are not limited to any internal EPA memoranda and correspondence that mention oil, petroleum, petroleum products, and sheen related to the Incident, EPA water sampling reports and pictures related to the Incident, and communications between EPA Region 6 and ITC.  We agree to pay fees for this request up to a maximum of \$500.00. If you estimate that fees will exceed this limit, please contact me first. If possible, I would like to receive this information in electronic format as soon as possible. Additionally, we would be pleased to accept the information in piecemeal installments.

Copies of AT&T, Verizon and CenturyLink phone bill reports for June 2019 for wire-line services provided by AT&T, Verizon, and CenturyLink. The portion of the bill I am requesting is a summary of charges and not the complete bill. The report name for each of the carriers is as follows: 1) AT&T - Summary of Invoice Charges; 2) Verizon - Tax Summary; 3) CenturyLink - Your Account Balance. In CenturyLink's case the Your Account Balance report summarizes the following fees: 1) Current Gross Charges; 2) Discounts, Promotions & Fees; 3) Government Fees & Taxes; 4) Other Fees and Monthly Charges; 5) Current Net Charges. Please note that the reports being requested are only a small portion of the entire phone bill.

The summary reports being requested should be minimal compared to the overall number of pages in a complete bill, and accessing those pages should be a low time-consuming task for the person with expertise navigating the carrier billing portals. Through conversations with TSM's at the GSA, I've been led to believe the person with expertise in this area is likely in the IT billing and finance department, Office of the CIO, or Office of the CFO. I am attaching an example of AT&T's Summary of Invoice Charges for your reference.

MODIFIED AS FOLLOWS:

In a June 19, 2019 letter from Pat Evangelista, Acting Director (Region 2 Superfund and Emergency Management Division), to Mark J. Pedersen at NJDEP, Acting Director Evangelista states that:

As you know, EPA has developed a Per- and Polyfluoroalkyl Substances (PFAS) Action Plan and has identified Superfund Sites, some at the recommendation of the New Jersey Department of Environmental Protection (NJDEP), with the potential for PFAS contamination for further evaluation and sampling.

I am seeking the listing referred to by Acting Director Evangelista in his letter as well as other similar listings prepared by EPA with respect to New Jersey, if any.

Dear Mr. Hladick: This is a request under the Freedom of Information Act.

I request that a copy of the Preliminary Design Investigation Evaluation Report on the Portland Harbor Superfund Site submitted to the EPA by the Preremedial Design Group.

I am a reporter with Oregon Public Broadcasting, and this request is part of nonprofit news gathering efforts and not for commercial use.

I request a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the cleanup plans for contamination at the Portland Harbor Superfund Site and is not primarily in my commercial interest.

Thank you for your consideration of this request.

008820 Mr. Adama Sidibe Cyrus 9/11/2019

Cyrus is conducting an environmental site assessment of the above-referenced property. As part of the assessment, we are requesting that your office perform a records search to identify any files of environmental concern that your office may have regarding the subject property or nearby properties. In addition to hazardous material incidents, we would like to know if your office has any information regarding wells and/or septic systems located on the property. If files are located for this property, please provide me with some or contact me so that I can review the file sometime next week. If there are none, kindly advise me in writing. Thanks.

Re: Central Wire  
 Dates of Incident: 2005-201  
 Location of Incident: 6509 Olson Road, Union, Illinois 6018

☐  
 To whom it may concern:

Our firm, Romanucci & Blandin LLC, represents Dana Harper regarding Central Wire's continued noncompliance with federal and state regulations regarding emissions and/or polluting of neighboring land, air, and water in Union, Illinois. Upon information and belief, Central Wire, a company located in Union, Illinois, released and/or transferred into the surrounding environment amounts of chemicals significantly exceeding limits established by the US and Illinois Environmental Protection Agencies from 2005 up to and including present day.

Pursuant to the provisions of the Freedom of Information Act, 5 ILCS 140/1, I am requesting information related to the release and/or transfer of chemicals into the environment by Central Wire between 2005 and 2019.

Specifically, I am requesting any and all:

- 1) Documents, investigations and/or reports created by the US Environmental Protection Agency (EPA) regarding any and all citations for release and/or transfer of chemicals beyond the established allowed amount;
- 2) Any and all correspondence and/or communication created or possessed by the EPA regarding the above-listed company;
- 3) Reports, data and/or diagrams regarding the above-listed company;
- 4) Meeting minutes and/or documentation of EPA's concern and/or investigation into the above-listed company; and
- 5) Documentation from the Bureau of Air, the Bureau of Land, the Bureau of Water, Chemical Safety, and Pollution Prevention programs regarding the above-listed company between 2005 and 2019.

I look forward to hearing from you in writing within five working days as required by the Act. Due to the time frame from which I am requesting documents, I acknowledge the vast amount of potential records and propose a rolling disclosure.

This letter is a request for records under the Freedom of Information Act, 5 U.S.C Section 552. We are requesting all records in your possession concerning the site located at 2525 Prairieton Road, in the Town of Terre Haute, Indiana, commonly known as "Western Tar Products"

We will pay all reasonable costs associated with the search, review, and production of the documents requested. If, however, you estimate that such costs will exceed \$250.00, please contact me by telephone at (312) 332-5656 or by letter at 111 W. Washington Street, Suite 1800, Chicago, Illinois 60602 before incurring costs in excess of that amount.

The Act provides that if some part or parts of the documents containing the requested information are exempt from mandatory disclosure, "reasonably segregable" portions shall be provided. Therefore, if you determine that some portion of a requested document is exempt, we ask that you provide us with a copy of the remainder of the document. Additionally, if you determine that some or all of the requested documents are exempt from disclosure, we ask that you provide us with a list or index of the documents withheld, the statutory exemption invoked, and the reason for the invocation of any exemption in each case.

EPA-HQ-2019-008748	Mrs. Meridith Canning	Stone & Johnson Chartered	We appreciate your cooperation and will expect your response within twenty working days, as is required by the Act. Should you have any questions, or if I can be of assistance in narrowing or more precisely defining the scope of this request, please do not hesitate to contact me.	9/9/2019

To whom it may concern:

Please accept this as request for any information/documentation/files with your department regarding the above-referenced property.

AEI Consultants is currently conducting the Phase I Environmental Site Assessment for the property. The ASTM Practice E1527-13 Standard Practice of Environmental Site Assessments requires that a records search be conducted with local regulatory departments for information regarding the subject property. Of particular interest are the following items:

- Record of hazardous materials or hazardous waste inventories
- Record of violations of hazardous materials spills
- Record of releases of responses
- Record of aboveground and underground storage tank releases or excavations
- Record of previous subsurface investigations
- Any other conditions that may involve the environmental integrity of the subject property

Please call (773.693.1111) or email ([cdougherty@aeiconsultants.com](mailto:cdougherty@aeiconsultants.com)) me to discuss the file information or if you require further information. Thank you for your time and attention regarding this matter.

Hello,

Tetra Tech, Inc. (Tetra Tech) is conducting a Phase I Environmental Site Assessment (ESA) at the Bult Fuel Oil property located at 2605 Condit Street in Highland, Indiana. This investigation is being conducted in order to identify evidence of any recognized environmental conditions (RECs) that may have an adverse environmental impact upon the subject property. Tetra Tech's client is requesting a due diligence investigation. According to ASTM Standards E 1527-13, property record reviews are required prior to completing this investigation.

Tetra Tech is requesting any records you may have concerning the property of interest. Records may include, but are not limited to:

- Records indicating former operations/owners
- Contamination issues in soil or groundwater
- Leaks or spills of hazardous materials
- Storage or use of hazardous materials
- Monitoring well installations and/or sampling results
- Underground or aboveground storage tanks (tank abandonment, removals, and closures)
- Site remediation/investigation activities
- Environmental violations
- Sewer or septic issues; issued permits
- No further action letters
- Consultations with the local environmental agencies (IDEM)
- Sites that may be classified as State Hazardous Waste Sites

Any assistance from your office would be greatly appreciated. If you have any questions or concerns regarding this request or if you need additional information to assist with your record search, please feel free to contact me via phone at (708)955-4569 or e-mail at rachel.houle@tetrattech.com. Thank you in advance for spending time on this matter.

Hello,

I am trying to obtain a copy of a memorandum mentioned in the "Verticillium Isolate WCS850 (PC Code 081305) Biopesticide Registration Action Document" found online at: [https://www3.epa.gov/pesticides/chem\\_search/reg\\_actions/registration/decision\\_PC-081305\\_17-Nov-06.pdf](https://www3.epa.gov/pesticides/chem_search/reg_actions/registration/decision_PC-081305_17-Nov-06.pdf) .

This document states that the "detailed rationale and justification are on file with the EPA" and is cited as:

â—€Requests for Waivers from Toxicity and Pathogenicity Testing on Non-target Organisms (Avian Oral, Avian Inhalation, Wild Mammals, Freshwater Fish, Aquatic Invertebrates, Terrestrial and Aquatic Plants, Insects and Honeybees, and Estuarine and Marine Invertebrates) for the Microbial Pesticide (TGA), Verticillium Isolate 850.â—€

I request that you make available to me the following records:

The records of all water systems reporting water sample results that exceed the Lead and Copper Rule's Action level (in excess of 15 parts per billion) found in the EPA's Safe Drinking Water Information System. Please include the records from Jan. 1, 2014 through July 31, 2019. Please include the name of the water system, the city/municipality the water system serves, the size of the water system (i.e. small, medium or large) the date of the water sample, and the 90th percentile sample results. Please only include results reported under contaminant code PB90, which is for lead.

In addition, please include copies of the record layout and all relevant documentation regarding this data.

In keeping with 5 U.S.C. Â§ 552(a)(3)(B), agency FOIA guidelines and presidential directives regarding the release of public data in machine-readable format see, e.g., the executive order of May 9, 2013, "Making Open and Machine Readable the New Default for Government," accessible at [tinyurl.com/exec-order-open-data](http://tinyurl.com/exec-order-open-data) I request that these records be provided in an electronic format that can be imported into standard database software. Examples include an Excel .xls or .xlsx file, an Access .mdb or .accdb file, a text-based delimited file (.csv, .txt., .tsv., etc.), a .dbf file or an SQL dump. (This would not include PDFs, which are not readable by database software.) If possible, my preference would be Excel file.

Please provide certified copies of all records related to ASBESTOS at the following locations:

- 1) Hunt's Cannery in Hayward, CA;
- 2) S Pipe at 1295 Whipple Rd, Union City, CA 94587.

Hunts operated multiple canneries in Hayward, CA. The company was known as Hunt Brothers Cannery, Hunt-Wesson Foods, Hunt Foods, and Hunt's. The canneries closed in 1981 and have since been mostly demolished and replaced with housing.

At its height in the 1960s and 1970s, Hunt's operated three canneries in Hayward (A Street, B Street, and C Street at the Southern Pacific railroad tracks), an adjacent can-making company, a pickle factory, and a glass manufacturing plant. From the 1890s until its closure in 1981.

At its peak, Hunt Foods consisted of an industrial complex of 90 acres that stretched for a 1 1/2 miles along the Southern Pacific Railroad. The plant buildings occupied more than 1 million square Feet of space. Hunt eventually merged with the Wesson packing company, and the plant began closing down in 1978. The United Can plant remained in Hayward, employing 200 full-time and 1.300 seasonal workers. Other portions of the Hunt plant were transformed into warehouse space, Cannery Park, and the Price Club/Costco store.

Because there has been significant development since these plants closed down, it is not possible to provide an accurate street address for these plants that may correspond with the records in your system. However, I have attached a aerial photo and circled the footprint of the plants.

We seek all records related to asbestos at these locations, including asbestos abatement notifications, abatement permits, asbestos violations, asbestos inspections, records of asbestos contamination, or any other records of asbestos being present at these locations.

To Whom It May Concern:

This is a request under the Freedom of Information Act (FOIA) on behalf of The Capitol Forum, a media organization.

Between years 2011 and 2015, EPA's Criminal Investigation Division (CID) contacted state counter-parts in an auditing effort to determine the number of enforcement personnel staffed in the state programs. Pursuant to FOIA, I hereby request the following record(s) as it relates to said survey/audit:

1. A document, table, datasheet, or figure including the data from state respondents (i.e. number of support personnel, attorneys staffed, number of agents, etc.) as it was created by EPA staff for distribution.
2. If no such record exists as described above, we request the records reflecting the responsive survey answers as they were filled out by survey respondents and submitted to CID.

In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.

Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires.

Sincerely,

Please provide copies of all records related to ASBESTOS at Marshfield Canning in Marshfield, WI.

This was a multi-building facility that was built in 1924 and closed in 1995. Some or all of the buildings comprising the facility were demolished in the mid-to late- 1990s.

The facility was also operated under the following names:

- 1) Marshfield Canning Company;
- 2) Marshfield Foods;
- 3) Conomowoc Canning Company;
- 4) Lakeside Foods, Inc.;
- 5) Reedsburg Food Corp.;
- 6) Reedsburg Foods.

When the facility was operating, it was located at 1616 S Central Ave, Marshfield, WI 54449. Other potential addresses for this address include: 1616 S Roddis Ave, Marshfield, WI 54449; and 1624 S Roddis Ave, Marshfield, WI 54449. I have attached an aerial photo of the site of the former facility, along with some news articles about the facility, its sale, and its demolition.

U.S. EPA FOIA Officer,

This is a request under the Freedom of Information Act (5 U.S.C. Â§ 552).

I request a copy of the most recent version of Microsoft Access comprehensive electronic database for the San Jacinto River Waste Pits (SJRWP) Superfund site located in Harris County, Texas. The database was prepared and maintained by Integral Consulting, Inc. on behalf of the responsible parties.

In order to help you determine my status for the purpose of assessing fees, you should know that I am affiliated with a private business and am seeking information for use in a third parties company business.

Please send me the documents in electronic format (native Microsoft Access) in which you keep the records. If the records are only in paper format, please scan them into PDFs. Please email me the records, or if that is not possible, mail them to me on a CD. If you are not able to send the records in one of the formats I requested, please contact me to discuss alternatives

I understand that if I seek a copy of this record, there may be a copying fee. Please inform me of that cost prior to making the copy. I can be reached at 832-786-5772. I authorize you to remove exempt materials as defined in Title 5 United States Code, Section 552 et seq.

I also include a telephone number and email address where I can be contacted if necessary to discuss any aspect of my request.

Sincerely,

This firm represents Rentokil North America relevant to a civil action in Wyoming regarding alleged pesticide exposure between July and August of 2015. On or around September 9, 2016 the EPA received a complaint about the applications of Talstar insecticide at the Qwest Building, at the offices of the State of Wyoming Dept. of Health and Northrop Grumman, located at 6101 Yellowstone Road, Cheyenne, WY. Documents are EPA Docket # FIFRA-08-2017-0007. Date Range June 2015-to Dec 2016.

At this time, we are requesting the complete investigative file in possession of the EPA, including but not limited to: notes, photographs, reports, interviews of employees, any and all documents relating to inspection of the building, and any additional documents enclosed within the file.

To Whom It May Concern:

I am a pesticide industry reporter with the Bloomberg News organization, also including Bloomberg BNA. Pursuant to the Freedom of Information Act (FOIA), I hereby request copies of all records containing the following information:

Any correspondence between Dow Agro Sciences, now known as Corteva Agriscience, and the EPA regarding the registration of the pesticide chlorpyrifos - this includes minutes, notes from conference calls, documents and emails (including attachments).

Please search within the following date range: Jan. 1, 2017 and Aug. 1 2019.

In order to help to determine my status to assess fees, you should know that I am a representative of the news media affiliated with Bloomberg News. This request is made as part of news gathering activity and not for commercial use.

If you deny my request for a fee waiver, please inform me before processing my request. If you have any questions regarding this request, please contact me at aallington@bna.com.

Thank you for your consideration of this request.

Pursuant to the Freedom of Information Act (FOIA), as amended, 5 U.S.C. §§ 552, et seq., and the United States Environmental Protection Agency's (EPA) rules issued thereunder, 40 C.F.R. Part 2, COGENY GLOBAL INC. hereby requests from EPA copies of the Enforcement Analytical Method (Guideline 830.1800) for Lonza Inc.'s product Lonzabac 12 (EPA Registration Number 6836-283).

Documents responsive to this request likely will be maintained by the Office of Pesticide Programs. This office is identified solely to assist EPA in responding to this request and is not intended to limit the scope of this request in any way. Documents responsive to this request may be maintained by other EPA offices and divisions, and any such documents expressly are included within the scope of this request.

COGENY GLOBAL INC. understands that some of the documents responsive to this request may have to undergo confidential business information (CBI) review. COGENY GLOBAL INC. requests that any responsive documents that do not have to undergo CBI review be provided to us as soon as possible.

If for any reason you determine that portions of the requested information are exempt from disclosure under FOIA, please delete the allegedly exempt material, inform us of the basis for the claimed exemption, and furnish us with copies of those portions of the information that you determine not to be exempt. COGENY GLOBAL INC. consents to such deletion at this time to facilitate your prompt response and in no way waives our right to appeal any determination that you may make regarding the applicability of any FOIA exemptions to the requested documents and information.

Andrea

Thank you for discussing the below referenced Freedom of Information Act (FOIA) request (EPA-R2-2019-008338) with me yesterday. As a follow-up to our discussion and our November 4, 2019 letter to EPA, we would like to clarify our request in several respects:

Recognizing that some of the FOIA-responsive documents are located both in New York and Puerto Rico, we would like to first review the available New York FOIA-responsive documents. We can make ourselves available on any of the following dates to review EPA's New York files on (i) the PROTECO Superfund Site located in Penuelas, Puerto Rico (EPA ID No. PRD000831487) and (ii) the former Owens-Illinois de Puerto Rico LLC facility located in Vega Alta, Puerto Rico: November 21, November 22, November 25, or December 2-6.

If EPA has an index available for these two facilities, we would be happy to review the index and try to narrow down the documents that we would like to review. At this time, we are primarily interested in (i) documents related to the two facilities' RCRA, CERCLA, and water program files, including any permitting related to any of these programs; and (ii) any correspondence between the facilities and EPA.

We are not requesting that EPA produce email correspondence regarding these two facilities.

Please let us know when EPA's New York files can be made available for inspection and whether an index for these two facilities is available to review in advance.

Thanks,

Kegan A. Brown

To Whom It May Concern:

Under the provisions of the Freedom of Information Act, 5 U.S.C. 552, we are requesting copies of documents from the file jackets for Bio-Oxygen Chem Decon Part A (EPA Reg. No. 90920-1) and Bio-Oxygen Chem Decon Part B (EPA Reg. No. 90920-2). Our client, Artemis Bio-Solutions, Inc. (formerly Artemis Bioproducts, LLC.) needs to fill gaps in their files because their previous consultant/agent did not provide them with copies of the submission documents. The documents we are requesting include, but are not limited to:

- 1) All administrative documents, including, but not limited to, cover letters, application forms, CSFs, Formulators Exemption Statements, Certification With Respect to Citation of Data forms, Data Matrices, and labels.
- 2) Copies of the Data Evaluation Reports (DERs) for MRID Numbers: 49950301, 49950302, 49950303, 49950304, 49950305, 49950306, 49950501, and 49950502.
- 3) Copies of the study volumes for MRID Numbers: 49950301, 49950303, 49950501, and 49950502.

While copies of study data are being requested, these studies were submitted and are owned by Artemis Bio-Solutions, Inc. Therefore, FIFRA Section 10(g) does not apply and no affirmation of multinational status will need to be filed.

Per 40 CFR60.534(g) (g) The manufacturer of an affected wood heater model line must notify the Administrator of the date that certification testing is scheduled to begin by email to WoodHeaterReports@epa.gov. This notice must be received by the EPA at least 30 days before the start of testing. The notification of testing must include the manufacturer's name and physical and email addresses, the approved test laboratory's name and physical and email addresses, the third-party certifier name, the model name and number (or, if unavailable, some other way to distinguish between models), and the dates of testing. The laboratory may substitute certification testing of another affected wood heater on the original date in order to ensure regular laboratory testing operations.

We are requesting the copies for all units that have submitted 30-day notice of a manufacturers intent to conduct certification testing for the period covering May 15, 2015 through May 15, 2016 and June 15, 2019 to the present. We respectfully request all data pertaining to those notification to include all required information including but not limited to the manufacturer names, models, date of test request, test lab and 3rd party certifier. This is a similar request to the one filed in April of 2018 and 2019, as it provides critical information to track industry compliance and assess program performance.

EPA-HQ- 2019- 008306	Lisa Rector	NESCAUM	Per 40 CFR60.537(f) and 60.5479(f) within 60 days after the date of completing each performance test, e.g., initial certification test, tests conducted for quality assurance, and tests for renewal or certification, each manufacturer must submit the performance test data electronically in both CBI and redacted versions to WoodHeaterReports@epa.gov. The regulation also states that emission data, including all information necessary to determine compliance, may not be claimed as CBI. Per sections 60.533 and 60.5475, the submission of emission data are a stand alone component in the certification application process. We are requesting all information EPA received as part of the 60-day reporting requirement under the 2015 Residential Wood Heater New Source Performance Standards reporting requirements to include all non-CBI emission data to include (1) data from fully completed tests, (2) data from stopped or incomplete test reports, and (3) the data this information was submitted to EPA. Please recognize this request for information related to any and all chemical or hazardous materials located in or around the former trailer park named Stonebridge Manor in Eureka, Missouri. This would include addresses off of Williams Road, and locations around Flat Creek in Eureka, MO. The site might have also been referenced as "Stone Bridge" Manor, or under various property-specific names in Eureka, MO. I hereby request all data, correspondence, press releases, reports, summaries, test results, lab reports, and any and all documentation regarding environmental testing for hazardous materials or chemicals in the area, including all information related to potential chemical migration into Eureka and Stonebridge Manor during the flood of 1993 from the nearby town of Times Beach, Missouri. Stonebridge was evacuated during the 1993 flood.

In responses to previous FOIA requests, I have received EPA's correspondence logs that identify specific pieces of correspondence between EPA and public officials by control number and public office. I am now requesting specific pieces of correspondence identified in those correspondence logs by control number and public office. Please include attachments, enclosures or any other documents that were provided with the piece(s) of correspondence in its original form. In addition, please provide all direct agency responses to the requested piece(s) of correspondence.

I request the following piece(s) of correspondence listed by control number and public office:

I request records that document disciplinary action "including but not limited to docked pay, reassignment, suspension, termination and/or transfer" taken against the EPA contractor involved in the matter of offensive notes or inappropriate messages left in EPA common areas.

I also request records that document complaint(s) against the EPA contractor relating to this matter, including but not limited to abuses of civil rights or civil liberties, employee or contractor misconduct and inappropriate imagery and language.

Please consider any emails, handwritten notes, letters, memorandums, text messages, voice and video recordings as well as other documented forms of communication that record disciplinary action and/or complaints against the EPA contractor involved in this matter as responsive records to my request.

Responsive records will likely be found in the Office of Mission Support.

This matter is described in Nov. 19, 2018 and Aug. 6, 2019 emails by EPA Administrator Andrew Wheeler as well as an Oct. 31, 2018 email by Nate James, president of American Federation of Government Employees Local 3331, and Joe Edgell, then-president of National Treasury Employees Union Chapter 280.

HELM Agro is requesting a FOIA on Syngenta's Closed Handling System Container Design for Net Contents under 120 Gallons.

As a requirement of registration on Paraquat Dichloride [Registration Review Docket: EPA-HQ-OPP-2011-0855] Human Health Mitigation Decision per Phase III Label Mitigation Measures, Paraquat Dichloride is required, in the future, to be found in a Closed Handling and Transfer System. The anticipated date of this change is 12 -month after the September 30, 2019 date. HELM is currently leading the Paraquat Closed Handling System Task Force with other Technical Paraquat registrants (except Syngenta) to design and create a Closed Handling System (CHS). The Paraquat Closed Handling System Task Force developed a Closed Handling System (CHS) that has been reviewed and approved by US EPA and we are to begin the tooling and engineering of the CHS prototype in the immediate future. It was just determined Syngenta has developed their own CHS system and that container has been reviewed and accepted by US EPA. The details on the Syngenta Closed Handling System (CHS) is imperative information needed for HELM to make a business case in proceeding with CHS design.

I am requesting a compilation, by state, of environmental violation reports from 2000 to current, as one would submit here: <https://echo.epa.gov/report-environmental-violations> (and by phone).

Specifically, I do not want media uploads nor personal information, as I don't want to violate an individual's privacy. For each violation reported, a description (if it was provided) of the violation at hand, the "affected subjects" (should this category be filled), date of incident. Each violation should include the date of submission and state in which it was filed.

I can see how providing individual violations might be difficult, so if they are not available/not allowed but an aggregate is -- for example: for each state and day, a count of violations pertaining to a certain description, such as "lead in water" -- that is fine.

I will accept week of submission, too. If it is easy to include the city without violating privacy, that would be great, too: i.e. list of number of violations in each week (or day) in each city for each type of description of violation.

Removal of "violator name", "violation location", "suspected violation zip code", and all reporter contact information should preserve privacy of reporters and those reported. If necessary, removal of the city is acceptable.

To Whom it May Concern,

I am an attorney defending a case involving multiple motor vehicle accidents. The case is pending in the Ector County, Texas 70th Judicial District Court. The cause number is A-16-08-0808-CV. I represent one of the Defendants.

I am seeking records regarding a motor vehicle and/or semi-tractor incident which occurred on March 4, 2015. According to the Odessa Fire and Rescue Department, the EPA went out to the scene to assist and contain a fuel leak from a tractor that was involved in the accident.

I am requesting records regarding or related to that incident. Specifically, I am requesting any and all documents regarding any reports, investigations, and inspections of any fuel leaks in the Odessa, Texas and Midland Texas areas between March 2, 2015 and March 7, 2015. This request includes, but is not limited to, photographs, videos, scans, and or documentation of the tractor trailer and the scene of the fuel leak.

EPA-R6-

Hi Frank –

Thanks for chatting about the FOIA request yesterday.

Just to summarize what I understand, you’ve been looking at the voluntary cleanup of the Ciba-Geigy site in the 1990s and have generally found these types of documents:

1. Files from the phase 1 and phase 2 investigation of the facility
2. Final RCRA facility investigation reports on phases 1 and 2
3. Removal reports on the soils and sediments removed from the site
4. Clean up work plans (individual works plans on soil, groundwater, etc.)
5. Monitoring data on soil, sediment, and groundwater supporting the investigation and following the clean-up

We are primarily interested in information about the operations of the site prior to the voluntary clean up so right now we are interesting in getting the 1) investigation files and 2) the final RCRA Facility Investigation reports.

Hopefully this helps cut down the amount of work for both of us.

Our hope is that providing a one-time snapshot of the database will allow you to support this project with the least possible effort.  If a complete snapshot is not possible, we would like to request data for all drinking water sample parameters/analytes managed by EPA Region for Wyoming and included in Wyoming's Drinking Water Watch. For each data record, we would like to request all available relevant information, including: water system ID (PWSID), water system name, sample type, sample location and/or sample location ID, sample ID, collection date, sample result, unit of measure, method reporting limit (MRL) or method detection level (MDL), and MRL/MDL units. At minimum, we would like to request data for 2009 through the present. We will provide a SQL query to assist the retrieval of the requested data.  Ideally we'd like to receive the data in csv files, but can also work with txt files, Access database files, or excel files. Please let me know if there's a concern with providing the data in these formats.  We also understand the resulting data file may be very large. We have a company filemail account that can be used for secure transfer of large files. To use this, you just need to upload the file here: <a href="https://corona-environmental-consulting.filemail.com/">https://corona-environmental-consulting.filemail.com/</a> and hit send. Please let me know if you'd like to use or discuss a different file transfer option.  I am available to discuss this data request by phone (303-317-3664) or by email (csamson@coronaenv.com). 			To whomever this may concern, I am a reporter with the Vineyard Gazette. I am requesting the following documents from the EPA: The stormwater pollution prevention plan (SWPP) for the site at 20 Black Brook Road in Aquinnah, MA. NPDES permit ID - MAR101006. I understand that this information has previously been denied because the third party applicant has claimed it constitutes confidential business information. If that is still the case, I would like to also request, under the FOIA, the third party applicant's comments to support its CBI claim, as well as the EPA's final confidentiality determination. 			I would like some information on Las Vegas Paving Corporation, located at the intersection of Yates Well road and I-15. The site shows up in my historical records in the FINDS and ECHO databases. I've searched online for the site within these databases and I'm having a hard time understanding what the databases display. I'm mainly looking for information such as any potential releases of hazardous substances from this site to the environment. I think one of the databases mentions that this site uses or transports polycyclic aromatic compounds and one other chemical. I would like any info or documents regarding this site and any releases that have occurred. Thanks! I would like to view these files electronically as I am not in the area of this request.

EPA-HQ- 2019- 008036	Richard A Cortis		On March 19, 2019 I met with Mr. Todd Garavanta from the U.S. Environmental Protection Agency in regards to asbestos contamination at 1099 E Grand River Avenue Williamston Michigan 48895. After I met with Mr. Garavanta on site and showed him where this contamination was located he stated it would take a couple of weeks to get his testing crew out to bore holes. While talking with him about this site he made reference that he had pulled the MDEQ on this site from 2014 and he could pull this report without anyone knowing he pulled it. After making this statement he asked me to point to the spots where I dumped the asbestos. I immediately corrected him and stated I dumped nothing and when discovered by my worker I reported it immediately to the local government unit. After this statement I asked to see his MDEQ report (Incident #20143300017) to see how it was written now that I knew he pulled the report and had it in his possession so I could see what it said about me. He refused to share it with me stating he was not allowed to share that with me and he departed. Significant efforts are underway to better refine these methodologies to incorporate the usage data, the importance of which is underscored by a number of public comments. The additional usage data that was compiled and submitted to the Services after the 2017 BiOp was completed will likely allow NMFS to further refine its conclusions regarding jeopardy and adverse modification for chlorpyrifos, diazinon, and malathion, and to better focus the RPAs and RPMs to more effectively protect listed species and their critical habitat(s). To Whom it May Concern;

I am seeking a copy of the anonymous complaint prompting Special Agent Robert Kozeluh of U.S. Environmental Protection Agency Criminal Investigation Division 5 to initiate an investigation in the Safety-Kleen Co. a division of Clean Harbors on or about 27 June, 2019. Prior to his initial contact with me there was a previous 2 week field inspection by the EPA air group of the property. It is apparent that during or shortly after the field inspection, an individual other than an inspector contacted Agent Kozeluh implying that members of the company were conducting actions contrary to sound business practices as it relates to the companies environmental responsibilities. I must have been singled out in this complaint as Agent Kozeluh paid a personal visit to my residence on the afternoon of 27 June, 2019. Agent Kozeluh and myself had a phone conversation On 28 June to address his questions.

I believe having an agent make a personal visit to an employees' residence is highly unusual and something had to peek his interest to search out my address and make an effort to drive out to my house. I believe what ever peeked his interest is contained in that complaint which I believe I have a right to a copy of it.

I am requesting this information as an individual and not a representative of the company.

Thank you in advance and you need additional details or information feel free to contact me.

Sincerely

Brian Rudzki

Please provide certified copies of all records related to ASBESTOS at the following locations:

- 1) Westinghouse Combustion Turbine Systems Division (CTSD) also referred to as "South Philadelphia Works" in Lester, PA;
- 2) Hazel-Atlas Glass Company, Hazel No. 2, in Washington, PA;
- 3) Frazier Simplex facility in Washington, PA.

Westinghouse Combustion Turbine Systems Division (CTSD) also referred to as "South Philadelphia Works" in Lester, PA was a multi-building steam turbine manufacturing plant near the Philadelphia International Airport. The facility has is now owned and operated but a number of different companies. This site is now known as the "Airport Business Complex" under the address 10 Industrial Hwy, Philadelphia, PA 19113. Because it is now owned by multiple different businesses, I have attached satellite and aerial photographs of this site to assist in identifying all of the buildings and any records of asbestos in those buildings

Other names associated with Hazel-Atlas Glass Company, Hazel No. 2, in Washington, PA are Brockway, Continental Can Company, Owens-Illinois, Slagle's Inc., National Oilwell Varco, and RPM Industris, Inc. Potential addresses for this site are:

- 1) 55 Hickory St. Washington, PA 15301;
- 2) 55 HICKORY STREET, CANTON, TOWNSHIP OF, PA 15301;
- 3) 7 Hickory St Washington, PA 15301.

The Frazier Simplex facility is located at 1720 N Main St Washington, PA 15301

We seek all records related to asbestos at these locations, including asbestos abatement notifications, abatement permits, asbestos violations, asbestos inspections, records of asbestos contamination, or any other records of asbestos being present at these locations.

EPA-R3-2019-007955	Mr. William Clark	Foley & Mansfield	<p>This request is not limited to any specific time period. This is a commercial request. We are willing to pay up to \$300 in fees. I am requesting records relating to an EPA investigation at a manufacturing site located at 213 Freeman Street, Brooklyn, NY 11222. This "EPA enforcement action" is described on page 7 of the attached complaint form, created by the New York Department of Environmental Conservation [NY DEC] in May-August 2007. In 2007, this manufacturing site was run by "Nuvite Chemical Compounds," or simply "Nuvite."

As for the records that I am requesting, I request to review the following:

1. Emails created by EPA Region 2 employees and sent to John Fitzpatrick (NY DEC) regarding any investigation or enforcement action at 213 Freeman St, Brooklyn, NY.
2. Emails created by EPA Region 2 employees and sent internally regarding 213 Freeman St or "Nuvite."
3. The original complaint either from NY DEC or an individual who was formerly employed by Nuvite [see attached NY DEC complaint] that triggered the EPA's investigation or enforcement action.
4. Any narratives or final reports created by EPA Region 2 employees regarding conditions at 213 Freeman St.

I request to receive these documents in PDF form. If that not is possible, I would prefer CD-ROM.

Re: Freedom of Information Act Request

Dear Freedom of Information Act Officer:

This is a request under the Freedom of Information Act.

I request that a copy of documents containing information on the calendar or calendar entries of acting Assistant Administrator of the Office of Air and Radiation Anne Idsal, from July 1, 2019, to July 31, 2019.

These documents could include, but not be limited to, itineraries, scheduling documents, or correspondences detailing meetings in person, over the telephone, or online including a list of each meeting's attendees and any correspondences on what was discussed. For calendar entries included in Outlook or similar programs, please produce the records in a memo form to include all invitees, notes, and attachments.

In order to help to determine my status to assess fees, you should know that I am a reporter with Bloomberg Environment, and this request is made as part of news gathering and not for a commercial use.

I am willing to pay fees for this request up to a maximum of \$25. If you estimate that the fees will exceed this limit, please inform me first. Please contact me if you have any questions.

Thank you for your consideration of this request.

Sincerely,

Abby Smith

On June 5, 2019, in response to FOIA Online Request No. EPA-R4-2019-005785, the EPA provided the attached RCRA Site Detail report (RCRAInfo 'handlerrpt') for EPA ID No. NCD070619663 (the attached "EPA-R4-2019-005785 (5.28.19) - RCRAInfo, Site Detail, NCD070619663" file). The current "owner" and "operator" of record information in that report is consistent with the information that is identified today in the following EPA web-based reports: 1) the Envirofacts Facility Detail Report for EPA Registry Id. No. 110000615264, and 2) the RCRAInfo Web Current Site Details for EPA ID No. NCD070619663 (I have attached copies of each of these referenced reports, which I printed today from the Agency's website). I request a current copy of the RCRA Site Detail Report for EPA ID No. NCD070619663 (updated to include any and all new information from the May 28, 2019 run date of the attached "Site Detail" report to present). Thank you.

Pursuant to the Freedom of Information Act (â€¢FOIAâ€¢), 5 U.S.C. Â§ 552, and the Environmental Protection Agency (â€¢EPAâ€¢) FOIA Regulations at 40 C.F.R. pt. 2, Democracy Forward Foundation makes the following request for records.

Background

On December 6, 2018, the United States Department of Agriculture (â€¢USDAâ€¢) announced the suspension of the Cost of Pollination report that tracked the cash fees associated with honey bee pollination based on information from crop producers about their use of honey bees to pollinate their crops.

On July 1, 2019, USDA announced the suspension of data collection for the annual Honey Bee Colonies report, which collected data from the USDA, beekeepers, and other interested parties in order to allow them to compare quarterly losses, additions, and movements and to analyze the data on a state-by-state basis.

Records Requested

In an effort to better understand and explain to the public EPAâ€™s role in USDAâ€™s decisions to suspend data collection and reporting related to honey bees and other pollinators, Democracy Forward Foundation requests that EPA produce the following within twenty (20) working days:

1. All communications, including interagency communications, concerning USDAâ€™s Honey Bee Colonies Report.
2. All communications, including interagency communications, concerning USDAâ€™s Cost of Pollination survey.

Please search the following EPA components: Office of the Administrator; Office of Chemical Safety and Pollution Prevention; Office of Congressional and Intergovernmental Relations; Office of Policy. The search period is September 1, 2018 to the date of search conducted.

For responsive records, please search for records regardless of format, including paper records, electronic records, audiotapes, videotapes, photographs, data, and graphical materials.

I request all briefing materials prepared for career EPA officials and/or distributed to Senate Judiciary Committee senators and/or staff members related to the EPA briefing given to the Senate Judiciary Committee regarding the EPA final rule entitled "Freedom of Information Act Regulations Update," RIN 2015-0002, held during the week of July 14, 2019.

Please consider any emails, handwritten notes, letters, memorandums, PowerPoint presentations, Slack chats, slide decks, text messages, voice and video recordings as well as other documented forms of communication that record the briefing materials prepared for and/or distributed for this briefing as responsive records to my request.

This briefing is described in the following EPA statement issued on July 24, 2019:

Last week, the Agency held a briefing for the Senate Judiciary Committee where staff were given the opportunity to ask any questions they had about the updated rule, these questions were answered by the top two career officials who run EPA's FOIA program. After many years of delay, EPA's FOIA regulations are now in line with the Congressionally mandated changes to the statute and EPA has no plans to withdraw the finalized rule. As we have said this rule will enhance transparency and efficiency of responses to FOIA requests. Allegations made that the rule is changing the political appointees role in FOIA are false. Looking for any correspondence or directives from the EPA to the KMCO facility located 16503 Ramsey Road, Crosby, Texas 77532. From April 2019 to present regarding pollution. We are requesting documents related to pollution prevention and control at the KMCO facility related to the April 2, 2019 incident. Any emails or hard copy directives that were sent from the EPA to KMCO about pollution. Date range would be April 2, 2019 to the present. Subject, anything relating to pollution. We do not require any analytical information or data. We are solely interested in directives that the EPA gave to KMCO about the April 2, 2019 incident. For the email portion of this FOIA request, I confirm I would like to limit the request to EPA directives to the email domain ending in kmcoinc.com . We also are not interesting in any CBI. We would like to up the fee commitment to \$100 dollars.

Wanda, I understand that you will consolidate the 13 FOIA requests I submitted electronically on 7/24 and 7/25/2019 to Region 2. If the records are found to be voluminous, I will accept an index from EPA in order to select records of interest. Also, I am withdrawing my request to have EPA staff review SF-135 forms to determine whether records for the facilities have been transferred to the Federal Records Center (FRC).

Let me know if you have any questions.

(5) All of Kevin's work calendars including outlook, with all scheduled appointments and attendees of those appointments. (6) Any and all of Kevin's personnel files, including all human resources paperwork and copies of his timesheets. (7) Any and all documents and records seized at the time of Kevin's removal from the EPA building on Feb. 12, 2018. By "seize" we mean, "to take hold of" or "confiscate". On Feb. 12, 2018, the EPA changed the lock on Kevin's office, confiscated his credentials and devices, including his computer and phones, removed his parking pass, and contacted security to escort him out of the building. These actions are considered "removal" for purposes of this request. We seek any and all records pertaining to each decision and action taken in connection with that "removal" and any subsequent correspondence thereafter.</p>	7/23/2019

All documents and communications related to EPA's Enforcement program's adherence to the "Unitary Executive Theory" with respect to enforcement against alleged violations of Federal environmental laws by or at Federal facilities.

Specifically, copies of documents generated after January 19, 2017, that address:

1) This statement is found on the Enforcement webpage:

<https://www.epa.gov/enforcement/overview-enforcement-process-federal-facilities#Enforcement%20Response>:

"Overview - For those statutes in which EPA has a full range of enforcement authorities, EPA's practice is to address violations at federal facilities in the same manner as private facilities. While EPA has broad administrative enforcement authority, it does not have civil judicial enforcement authority to address environmental violations by a federal facility. This limitation stems from the Department of Justice's (DOJ) interpretation of the Unitary Executive Theory, which prohibits one federal agency from suing another agency in federal court. In contrast, the Unitary Executive Theory does not limit nor prohibit state and tribal regulators, as well as citizen groups from suing another agency in federal court."

Provide all documents indicating both when and why that statement was placed on the webpage.

2) Also provide any other documents since January 19, 2017, that the Enforcement program or General Counsel has received, generated or circulated that mention the Unitary Executive Theory with respect to enforcement against alleged violations of Federal environmental laws by Federal facilities, including communications to or from any State enforcement agencies, including, but not limited to, a decision not to join or assist the New Mexico Environment Department in pursuing judicial enforcement against the Department of Defense under the NM Hazardous Waste Act and NMED's RCRA primacy powers for PFAS contamination related to activities at the Cannon and Holloman Air Force Bases.

Background Information:

Sandoval Superfund Site:

In 2010, U.S. EPA identified certain Company subsidiaries including InterAmerican Zinc, Inc. and Midwest Zinc Corporation as potentially responsible parties for the Site. U.S. EPA alleges that the Company subsidiaries are liable for having sent zinc-related waste materials to the Sandoval site for disposal. U.S. EPA and the Illinois EPA have undertaken various investigation and remedial actions at the Sandoval Site and certain offsite properties in the past; however, a decision on the final remedy for the Site has not yet been issued.

Request:

SLR International Corporation (SLR) is requesting that your department provide copies of file information pertaining to any Superfund documentation related to InterAmerican Zinc or Midwest Zinc that you may have for the Sandoval Superfund Site. According to records, it appears that the EPA is currently selecting the appropriate remedial action for the site. Has there been any updates or recent correspondence regarding further progress at the superfund? If so, could we see copies of this correspondence or any documentation related to the progress on the site.

Background Information:

Jack's Creek/Sitkin Smelting Superfund Site, Maitland, PA:

Based on EPA's 2016 Third Five-Year Review Report for Jacks Creek/Sitkin Smelting & Refining, Inc. Superfund Site, in 1994, EPA identified several dozen PRPs. In 1999, EPA issued a consent decree to the PRPs for Remedial Design and Remedial Action. Three phases of remedial action were taken in 2001, 2002 and 2003 which included removal of soils and source areas, reclaiming areas of the site, and capping a portion of the site. Since 2006, the site has been under a five-year review monitoring plan.

Based past documents, it appears that Gulf Metals was identified as a PRP for this site in the mid-1990s. Based on EPA's webpage, it appears that an on-going cleanup/long term monitoring plan is in-place. The allocated percentages that Gulf is responsible for on-going monitoring is unknown.

SLR International Corporation (SLR) is requesting that your department provide copies of file information pertaining to Gulf Metals Industries, Inc. and the Jack's Creek/Sitkin Smelting Superfund site. Could we see copies of the latest correspondence between the EPA and Gulf Metals Industries? Have there been any closure letters or No Further Action documentation on file? Do you have any files pertaining to on-going monitoring procedures at the site and any files pertaining to Gulf Metals Industries on-going monitoring responsibilities? Any information related to the site and Gulf Metals Industries would be greatly appreciated.

I am requesting a copy of NPDES permits issued within the past 10 years for mining-related discharges within the Greater Okefenokee Swamp Basin Boundary. The attached map shows the outer boundary of the Greater Okefenokee Swamp Basin, and boundaries of smaller basins within the Greater Okefenokee Swamp Basin Boundary. To narrow this request, only the most recent NPDES permit for mining projects that involve multiple years/modifications of NPDES permits for the same mining project is requested.

The documents described above are requested under the provisions of 5 USC 552, the Freedom of Information Act (FOIA). If fees are required to provide the requested information, I am willing to pay a reasonable fee to obtain this information, but the Act allows fee waivers to be granted when disclosure of the records is in the public interest and is likely to contribute to public understanding of the operations or activities of the government.

I am making this request as an individual engaged in public education regarding the regulatory history of mining-related discharges within the Greater Okefenokee Swamp Basin Boundary. I am not a commercial organization. The disclosure of the requested records is in the public interest because it is: a) likely to contribute significantly to public understanding of the operations or activities of the government, and b) not primarily in any commercial interest. Therefore, I am requesting a waiver of fees associated with the requested document.

Please provide the records via my e-mail. If the file size is too large, please provide the records on a CD, to my address. Hard copies of any remaining documents can be mailed to me.

EPA-HQ-2019-007194	Dr. Joseph A Davis	Society of Environmental Journalists	Request is for all records related to EPA's decision to issue Final Rule changing FOIA regulations, published published June 26, 2019, in the Federal Register (Docket No. FRL-9995-48-OGC). More detail in attachment.	7/9/2019

This is a request under the Freedom of Information Act (FOIA).

I request all records regarding Chief of Staff Ryan Jackson's external calls. Please include any office phone logs, cell phone bills, and messages sent to and from his cell phone. If possible, I would prefer to receive the largest number of records or documents in electronic form.

FOIA requires that if part of a record is exempt from disclosure, you must redact and release all segregated parts. Please describe the deleted material in detail and specify the reasons for believing that the alleged statutory justification applies in this instance.

If my request is denied in whole or in part, please specify which exemption(s) is (are) claimed for each passage or whole document denied. In addition, please give the number of pages in each document and the total number of pages pertaining to this request and the dates of the documents withheld. Such statements will be helpful in deciding whether to appeal an adverse determination.

EPA-HQ-  
2019-  
007203 Corbin Hiar

As required by FOIA, I look forward to hearing from your office within 20 days in response to this request.

The letter being requested is the response to the attached letter below. The attached letter is dated 19 June 1992 and is from Dr. Jeffrey Wong, Office of the Science Advisor of the Department of Toxic Substances Control of California, and is addressed to Mr. Rich Vaille, Chief, State Programs Branch of the USEPA. The attached letter seeks written USEPA guidance in regards to lead contamination in backstop sand of shooting range berms following lead recovery via conventional methods. Conflicting responses were previously provided, and the DTSC requested a written response to whether backstop sand and its removal would be federally regulated following shooting range closure. The document requested is presumed to be dated the same year, addressed to Dr. Wong or Ms. Diana Peebler, and contains written guidance regarding federal regulations for contaminated sand from shooting range backstops in the general time frame of 1992.

Pursuant to the Freedom of Information Act (5 U.S.C. §552, et seq.), I request access to and copies of all logs of congressional correspondence to or from any officials at EPA and Rep. Mike McCaul between January 3, 2005, and July 8, 2019.

Please search for responsive records regardless of format, medium, or physical characteristics. Where possible, please produce records electronically, in PDF or TIF format, via email or CD, particularly if providing the information reduces the time or expense involved. If your office cannot honor this preference, I am willing to discuss the most cost-effective and efficient means of duplication. I agree to pay reasonable duplication fees for the processing of this request in an amount not to exceed \$200. However, please notify me prior to your incurring any expenses in excess of that amount.

If any records are withheld or redacted, I request that you state the specific legal and factual grounds for withholding any documents or portions of documents. Please identify each document that falls within the scope of this request but is withheld from release and provide an index of those documents as required under Vaughn v. Rosen, 484 F.2d 820 (D.C. Cir. 1973), cert. denied, 415 U.S. 977 (2972). Please describe each document claimed as exempt including the consequences of supplying the sought-after information. If it is your determination that some portions of requested records are exempt, please disclose any reasonably segregable non-exempt portions of the requested records.

To Whom It May Concern:

Pursuant to the Freedom of Information Act, I hereby request the following records:

All communications, including emails with attachments, in the possession of Layne Bangerter that mention the "7 hills" or "Seven Hills" coal mine in Illinois. Please search your records from December 1, 2017 to December 1, 2018. This request is made on behalf of Documented, a news media requester.

The requested documents will be made available to the general public, and this request is not being made for commercial purposes.

In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.

Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires.

Sincerely,

Jesse Coleman

Subject: EPA Subpoena and Notice of Violation to INEOS Chlor

Sir or Madam:

I hereby request a copy of the:

1) The September 17, 2009 subpoena EPA issued to INEOS Chlor requesting information concerning INEOS Chlor's importation of chlorinated paraffins. The subpoena is mentioned in a complaint EPA filed in U.S. District Court for the District of Delaware on August 21, 2012, Case No. 1:12-cv-01058-RGA.

2) INEOS Chlor's October 1, 2009 and October 14, 2009 responses to the above-mentioned subpoena. These subpoena responses are also mentioned in the above-mentioned complaint.

3) December 14, 2009 notice of violation EPA issued to INEOS Chlor alleging that INEOS Chlor manufactured "new chemical substances" while failing to comply with the premanufacturing notice requirements under TSCA Section 5, 15 U.S.C. §2604. This notice of violation is mentioned in a consent decree filed in the above-mentioned federal litigation.

			<p>IN ADDITION TO THE ABOVE, SEEKING THE FOLLOWING RELATED DATA:</p> <p>In 1979 or 1980, the Federal government conducted a survey and tested via the air and on land, the radiation levels related to the use of iron ore tailings from the piles left at Port Henry, Witherbee and Mineville, NY (now comprising the town of Moriah). The tailings were left by Republic Steel when they closed their mining operations there in the early 1970's. An earlier government study conducted in the early 1950's and already available online showed that some of the mines there contained Uranium and other radioactive materials. It also found radiation levels in the tailing piles. In the 1979-80 study, the results showed that the tailings which were being used in the county for paving roads, as a replacement for road salt in winter and to form the beach (sand) at Port Henry were 5-10 times the radiation levels the EPA considered safe at the time. There was also concern about the homes that had early in the century been constructed with bricks made from tailings. I am interested in the details of this study, correspondence between the agency or third party that conducted the study and any other agencies including the DEC of NY. Particularly interested in the EPA's assessment, and the decision to take no action.</p>	7/2/2019

EPA-R2-2019-006999	Vernon Thornblad		<p>In 1979-1980 The Federal government did a survey and investigation via air and on the ground in Essex County, NY, particularly in the Moriah NY for radiation levels on the streets that had been paved with iron ore tailings left behind in the large piles in Port Henry, Witherbee and Mineville, NY. They also measured radiation on the roads where traditional asphalt paving was used but which were covered in the winter with tailings, a practice still used today instead of spreading road salt. A third area of concern was the beach in Port Henry, which had been created by flatenning and spreading a tailing pile. The radiation was measured at 5-10 times the level the EPA considered safe at the time. The NY Department of Environmental Conservation got involved. Lastly, there was concern about the homes constructed of bricks that were made using the tailing material, but the radiation in and outside the homes was not measured.No action has ever been taken. I am interested in receiving the report, and any communication between the EPA, the NY DEC, any third party that may have been involved with the study and any other communication regarding the study and the subsequent decision to take no action.</p>	7/2/2019

Re: Freedom of Information Act Request

Dear Freedom of Information Act Officer:

This is a request under the Freedom of Information Act.

I request a copy of documents containing information on the calendar or calendar entries of EPA General Counsel Matthew Leopold from June 1, 2019, to June 30, 2019.

These documents could include, but not be limited to, itineraries, scheduling documents, or correspondences detailing meetings in person, over the telephone, or online—including a list of each meeting’s attendees and any correspondences on what was discussed. For calendar entries included in Outlook or similar programs, please produce the records in a memorandum form to include all invitees, notes, and attachments.

In order to help to determine my status to assess fees, you should know that I am a reporter with Bloomberg Environment, and this request is made as part of news gathering and not for a commercial use.

I am willing to pay fees for this request up to a maximum of \$25. If you estimate that the fees will exceed this limit, please inform me first. Please contact me if you have any questions.

Thank you for your consideration of this request.

Sincerely,

Abby Smith

EPA-R6-2019-006912	Mr. Stanley Millan	JonesWalker	See pdf below: 2019 data, documents from Weston and/or EPA on radiation cleanup at Lowerline and Olive Street in New Orleans. No cbi is requested. I am referring to a recent, ongoing cleanup and removal of radium 226 at lowerline street in New Orleans. This is current local news, on the internet and TV. It should be in your Superfund records. Apparently the city and/or LDEQ asked for epa assistance under cercla in the cleanup around January 2019. Apparently epa hired Weston to monitor that neighborhood and test, cleanup, contain, and transport the waste to texas. The work took place in May-June 2019. I am looking for 2019 correspondence between epa and LDEQ and/or the city of New Orleans regarding the cleanup. I am looking for the work or task order epa issued to Weston for that 2019 work. I am looking for data from Weston's 2019 lab test reports for the site, its 2019 site reports to epa including photos, and a record of its 2019 Geiger counter readings for that site. Plus any 2019 reports made by your on-scene coordinator. Attached is a notice from New Orleans for the work. Date range of records requested is May-June 2019, except Weston task order by EPA may predate that. That contract document is the only thing between Jan 2019-May 2019 I want. I agree to a total \$300.00 total fee commitment.	6/27/2019

Hello,

Pursuant to the federal Freedom of Information Act, 5 U.S.C. Â§ 552, I request a list of all FOIA requests submitted to the agency between FY 2016 and date of processing. I'd like the name of the requester, the date, a summary of the topic, and whether the request was approved.

I would like to receive the information in searchable electronic format.

I agree to pay reasonable duplication fees for the processing of this request in an amount not to exceed \$25. However, please notify me prior to your incurring any expenses in excess of that amount.

As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages.

If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material.

I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees.

As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone, rather than by mail, if you have questions regarding this request.

I look forward to your reply within 20 business days, as the statute requires.

Thank you!

Sara

I specifically request the following documents:

1. All records (including e-mails, letters, documents, and memoranda) in EPA Region VIII's possession created on or after August 1, 2018 containing the phrase "Coyote Station."

2. The complete e-mail threads (including any replies or forwards including the original email or emails in the associated email thread), including attachments in those e-mail threads, for all e-mails produced under the first request, immediately above.

Because negotiation with the requester on search terms and potential EPA employees who might have records, EPA extended the search period to August 1, 2018 - August 15, 2019.

Please note that the purpose of this FOIA request is to obtain records that may assist with filing public comments on a forthcoming Title V permit for Coyote Station before the North Dakota Department of Environmental Quality. These records are not requested for commercial purposes.

Environmental Defense Fund (EDF) respectfully requests records including: (1) Environmental Protection Agency's (EPA) review of the regulation of greenhouse gases within the oil and gas sector, as referenced in EPA's Spring 2019 Unified Agenda; (2) EPA's submission to OMB of the proposed rule Oil and Natural Gas Sector: Emission Standards for New, Reconstructed, and Modified Sources Review, 2060-AT90; (3) EPA's review, as it pertains to the regulation of methane, of the final rule Oil and Natural Gas Sector: Emission Standards for New, Reconstructed, and Modified Sources, 81 Fed. Reg. 35,824 (June 3, 2016) (2016 rule) as indicated in EPA's announcement of its review. Review of the 2016 Oil and Gas New Source Performance Standards for New, Reconstructed, and Modified Sources, 82 Fed. Reg. 16331 (Apr. 4, 2017).

The records requested include, but are not limited to, communications, documents, letters, information, notes, memoranda, electronic mail transmissions or other electronic forms of information, telephone logs and records, meeting records, reports, analyses, assessments, data, and modeling, including all drafts and preliminary forms of any such records. Specifically, EDF requests all records:

1. Relating to the implementation, suspension, delay, modification, or elimination of the Methane Emission Standards, including but not limited to:

- a. Any alterations to the input or changes to the methodology EPA used in the 2016 rule analysis,
- b. Any records regarding the scope of the oil and gas source category,
- c. Any records regarding EPA's consideration of the significance of the oil and gas source category's contribution to emissions, or
- d. Any records related to EPA's consideration of the impacts of greenhouse gases or climate change on public health and welfare.

Good afternoon,

I am seeking 2019 Combined Sewage Overflow reports that have been submitted to the EPA District 1 office by the publicly owned sewage treatment plants along the Merrimack River -- Haverhill, Greater Lawrence, Lowell, Nashua and Manchester. Also, I am seeking the same records for the Fitchburg sewage treatment plant, located on the Nashua River.  
 I believe these records are submitted to the EPA within a week of a CSO event.

The address for the property in question has varied over the years, ranging from 222-287 Maspeth Avenue - but seems to settle on 287 Maspeth Avenue in later years, so if we could focus on that as the primary address that would be great!

As far as limiting scope, could we modify the date range from 1970-1990 (realizing that records may not be available at/before the time EPA was coming into existence)?

Thank you again for all of your help. Please let me know if I can provide any additional information.

We would like to request copies of the most successful grant proposals so we can post them on our website and make them available to communities interested in applying for future EPA Brownfield grants.

We are also requesting 6 non-winning grant proposals. We plan to use sections of these grants in our workshops/seminars / bootcamps to show communities examples of a grant that can be improved and how to improve it.

Here is what we would like to request:

• Top 10 scoring FY19 Brownfield Assessment Grant proposals

• Top 3 scoring FY19 Brownfield Assessment Grant proposals for Coalitions (if not already included in the above)

• Top 10 scoring FY19 Brownfield Cleanup Grant proposals

• Top 3 scoring FY19 Brownfield Multipurpose grant proposals

• Top 3 scoring FY19 Brownfield Job Training grant proposals (after they are announced)

• lowest three scoring assessment grants from any of the following regions (Region 5-10) (please make a notation to differentiate these from the highest scoring proposals)

• lowest three scoring cleanup grants from any of the following regions (Regions 5-10) (please make a notation to differentiate these from the highest scoring proposals)

EPA-R3-2019-006644	Corbin Hiar		To Whom It May Concern: This is a request under the Freedom of Information Act (FOIA). I request all records concerning Region 3 Administrator Cosmo Servidio's detailed schedule from October 2017 through the present. Please include all records that document Servidio's schedule, including but not limited to agenda sheets, appointments, day calendars, itineraries, Google calendars, Outlook calendars, programs and timetables. If possible, I would prefer to receive the largest number of records or documents in electronic form. Please produce the documents on a rolling basis. FOIA requires that if part of a record is exempt from disclosure, you must redact and release all segregated parts. Please describe the deleted material in detail and specify the reasons for believing that the alleged statutory justification applies in this instance. If my request is denied in whole or in part, please specify which exemption(s) is (are) claimed for each passage or whole document denied. In addition, please give the number of pages in each document and the total number of pages pertaining to this request and the dates of the documents withheld. Such statements will be helpful in deciding whether to appeal an adverse determination. As required by FOIA, I look forward to hearing from your office within 20 days in response to this request. If you have any questions about the nature or scope of this request, please call me at 202-446-0438 or email me at chiar@eenews.net. Thank you for your consideration of this request.	6/18/2019

Pursuant to the federal Freedom of Information Act, 5 U.S.C. Â§ 552, I request access to and copies of the FOIA logs for the agency from 2018 and 2019, through the date of the request's fulfillment.

I would like to receive the information in a machine-readable electronic format, if possible.

I agree to pay reasonable fees for the processing of this request up to \$25. Please notify me before incurring any expenses in excess of that amount.

For fee categorization purposes, I am a representative of the news media. Through this request, I am gathering information for my journalistic work with the Wall Street Journal, a national newspaper. Accordingly, I am only required to pay for the direct cost of duplication after the first 100 pages. 5 U.S.C. Â§ 552(a)(4)(A)(ii)(II); id. Â§ 552(a)(4)(A)(iv)(II).

If my request is denied in whole or part, please justify all withholdings by reference to specific exemptions and statutes, as applicable. For each withholding please also explain why your agency reasonably foresees that disclosure would harm an interest protected by an exemption or why disclosure is prohibited by law. 5 U.S.C. Â§ 552(a)(8)(A)(i).

I would appreciate your communicating with me by email or telephone, rather than by mail.

I look forward to your determination regarding my request within 20 business days, as the statute requires. Thank you in advance for your assistance.

Key words for records and email searching should include: "radiation," "lowerline," "coolidge," "radioactive" and "Gert Town." We would like the email search to go back to Jan. 2012. The City of New Orleans, the EPA, and the Louisiana Department of Environmental Quality were involved in the removal of the material during June of 2019. We are requesting the publicly available information only pertaining to this not the CBI. I would like to receive the denial log of all withheld information, excluding PBI Exemption 4.

Electronic delivery (in PDF or Excel formats, for instance) and delivery by email are agreeable and preferred. Under the aforementioned Public Records Law, we are requesting the following:

- \* Please acknowledge your receipt of this request within THREE WORKING DAYS (this is a deadline for your acknowledgment of our request, not a deadline for fulfillment).
- \* Make the requested records immediately available IF they are not in active use.
- \* If the records are in active use, please set a day and hour within a reasonable time frame when the records will be made available.
- \* If the records are not in your custody, please immediately state that in writing, and state in details why the records are absent, where they are, and the name of the person who has custody.
- \* If there is a question whether these are public records, please provide a written reason for the denial within THREE WORKING DAYS.
- \* If you plan to charge a fee for the documents, please state the amount and reason for fee before making records available.

Per 40 CFR60.534(g) (g) The manufacturer of an affected wood heater model line must notify the Administrator of the date that certification testing is scheduled to begin by email to WoodHeaterReports@epa.gov. This notice must be received by the EPA at least 30 days before the start of testing. The notification of testing must include the manufacturer's name and physical and email addresses, the approved test laboratory's name and physical and email addresses, the third-party certifier name, the model name and number (or, if unavailable, some other way to distinguish between models), and the dates of testing. The laboratory may substitute certification testing of another affected wood heater on the original date in order to ensure regular laboratory testing operations.

We are requesting the copies for all units that have submitted 30-day notice of a manufacturers intent to conduct certification testing for the period covering May 1, 2018 through June 14, 2019. We respectfully request all data pertaining to those notification to include all required information including but not limited to the manufacturer names, models, date of test request, test lab and 3rd party certifier. This is a similar request to the one filed in April of 2018. This is information that should be available to agencies interested and with delegated authority to witness testing. As part of our environmental due diligence for a Phase I Environmental Site Assessment, we are requesting information related to violations and enforcement actions associated with Inova Loudoun Hospital Center (FRS ID 110001908865, see the attached ECHO detailed facility report) as part of the AIR program. According to the ICIS database, this facility has been issued two (2) Notices of Violation described as "Administrative Informal Enforcement Action IDs VA000A0000511070013000030 and VA000A0000511070013000008) and one (1) Administrative Order described as "Administrative Formal" (Enforcement Action ID VA000A0000511070013000045). According to the US Airs database, the Notices of Violation were issued on February 10, 1998 and August 29, 2008, and the Administrative Order was issued on October 16, 2009. We are specifically looking for the nature of these violations, i.e. which pollutant(s) were not in compliance at these times. Thank you in advance for your prompt action on this request.

Dear FOIA officer:

My name is Brett Chase with the Better Government Association (BGA) and this is a request under the Freedom of Information Act. The BGA is a 95-year-old nonpartisan, nonprofit news organization based in Chicago.

Under FOIA, I am requesting

\*Totals for all Region 5 administrative compliance orders, administrative penalty order complaints and referrals to the U.S. Department of Justice for each year from fiscal years 2009 to 2019

\*Please provide a breakdown of initiations by program for each year during the same 2009 to 2019 period.

\*Please also provide individual state totals for the compliance orders, penalties and referrals for all six of the Region 5 states for each year during the same 2009 to 2019 period.

This is for a possible news story. As such, I ask that any fees be waived as law allows.

Please convey the information electronically to this email address: [bchase@bettergov.org](mailto:bchase@bettergov.org).

Also, please contact me with any questions.

Sincerely,

Better Government  
Association

EPA-HQ-2019-006425	Kathryn G. Wellman	Moore & Van Allen PLLC	Moore & Van Allen PLLC represents EarthKind, LLC (â€œEarthKindâ€œ) in its civil action against The Lebermuth Company Inc. (â€œLebermuthâ€œ) and Robert M. Brown in the United States District Court for the Western District of North Carolina, Statesville Division, Civil Action No. 5:19-cv-51. That action asserts claims arising out of Lebermuthâ€™s failure to adhere to Confidential Statements of Formula (â€œCSFsâ€œ) submitted to the U.S. Environmental Protection Agency (â€œEPAâ€œ) in 2006 in supplying ingredients for EarthKindâ€™s natural pest repellants. Pursuant to the Freedom of Information Act, 5 U.S.C. Â§ 552, we request access to and copies of all files, documents, and other materials related to any investigations by the EPA into, or actions taken by the EPA against, Lebermuth for its noncompliance with the CSFs. For reference, on July 24, 2017, EarthKind submitted a FIFRA/12A1C Compliance Report for Facility to the EPA which disclosed that Lebermuth (EPA Establishment Number 83238-IN-001) had not been following the EPA-approved CSFs for Canadian Wilderness Oil (Registration Number 082016-AAA) for EarthKindâ€™s pesticide â€œFresh Cabâ€œ (Registration Number 82016-1). This request includes copies of all forms, letters, and other documents in possession of the EPA in connection with Lebermuthâ€™s noncompliance, including any materials prepared by the EPA in anticipation of regulatory action against Lebermuth or as part of the EPAâ€™s investigation into Lebermuthâ€™s noncompliance.	6/11/2019

In the mid to late 1980s, EPA engaged in a cooperative project with the paper industry (represented by trade association NCASI) to characterize the dioxin content of paper mill sludges and effluent. This work resulted in the the '104 Mill Study' report as well as a separate 'Statistical Findings and Analyses' report. The final report is attached to this request for reference.

Specifically, we are seeking the analytical data for ALL of the TCDD/TCDF congeners. The summary report attached only includes 2,3,7,8-TCDD and 2,3,7,8-TCDF, and not all of the other congeners. However, a report discussing the inventory of EPA dioxin data released in 2006 (page attached) states that in an initial phase of the 104 Mill Study, samples from eight kraft mills and one sulfite mill were analyzed for ALL 2,3,7,8-substituted CDD/CDFs. We are requested that data, as well as any other raw data from the 104 Mill Study.

I am requesting the raw analytical data for this study, as it was submitted to the EPA by NCASI in the late 1980s.

I am working with Air Facility System (AFS) data elements included in the ECHO Data Download. Specifically, I am working with the Historical Compliance Status (quarterly â€” FY2007 to present) data. Is there any place that I could get the historical compliance status for the period before FY2007 (Ideally from mid 1990s)?

Re: Freedom of Information Act Request Regarding Government Support of the Safety of Public School Drinking Water in the United States  
Dear EPA:

This is a request under the Freedom of Information Act.

I request that a copy of the following documents [or documents containing the following information] be provided to me: Information regarding the restoration of drinking water line structures for public school entities across the nation in prevention of exposure to lead and other harms transmitted through drinking water. .

In order to help to determine my status to assess fees, you should know that I am a student seeking the request on behalf of an assignment given by my instructor. The purpose of this request is individual, for personal use and not for a commercial use.

I request a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in my commercial interest.

Thank you for your consideration of this request.

Terracon is conducting an environmental site assessment (ESA) on the Groco Specialty Coatings facility located at 10770 and 10818 C F Hawn Freeway in Dallas, Texas. I would like to request the RCRA (TXD053134086) and SEMSARCH (TXD053134086) files for this facility. If you have any questions or require additional information, please do not hesitate to contact me and reference Terracon project number 94197736. According to a regulatory database search, the facility in question, Groco Specialty Coatings, is listed on the EPA's RCRA Generators database, as well as the SEMSARCH database. The database information does not provide enough information about the operations at this facility, and the online record search provides essentially the same information as the database. I was hoping to review the paper files to obtain more information on how this facility manages their wastes and if there have been compliance issues in the past. The ID number provided by the database provider for this facility appears to be the same for both the RCRA and SEMSARCH databases. The date range would be from the early 1970s through the present, which is the amount of time which this facility has operated. I am requesting the publicly available information only, excluding CBI. I do not need a denial log.

I am a journalist for Bloomberg News. I hereby request the following records pursuant to the Freedom of Information Act, 5 U.S.C. §552 et seq.: all records pertaining to environmental concerns related to dredging in and around Corpus Christi as well as Corpus Christi Bay in Texas.

The disclosure of the information requested is in the public interest because it is likely to contribute significantly to the understanding of government operations. Specifically, oil infrastructure is of current interest to the public because the boom in U.S. oil production and gas has created a network of pipelines and terminals to move that hydrocarbon to international markets. As construction of new terminals and dredging begins in the nation's key waterway, it is important for the public to understand whether this activity poses any risks for the environment. Please inform me if such a waiver of fees is not applicable.

I am a member of the news media and there is an urgent public need for information that sheds light on the growth of exporting oil, which has already hit record levels thanks to the unprecedented surge in shale. I certify that my statements concerning the need for expedited processing are true and correct to the best of my knowledge and belief. Please advise within 10 calendar days whether the agency has granted my request for expedited processing.

Re: Freedom of Information Act Request

Dear Freedom of Information Act Officer:

This is a request under the Freedom of Information Act.

I request a copy of documents containing information on the calendar or calendar entries of EPA Chief of Operations Henry Darwin from May 1, 2019, to May 31, 2019.

These documents could include, but not be limited to, itineraries, scheduling documents, or correspondences detailing meetings in person, over the telephone, or online including a list of each meeting's attendees and any correspondences on what was discussed. For calendar entries included in Outlook or similar programs, please produce the records in memorandum form to include all invitees, notes, and attachments.

In order to help to determine my status to assess fees, you should know that I am a reporter with Bloomberg Environment, and this request is made as part of news gathering and not for a commercial use.

I am willing to pay fees for this request up to a maximum of \$25. If you estimate that the fees will exceed this limit, please inform me first. Please contact me if you have any questions.

Thank you for your consideration of this request.

Re: Freedom of Information Act Request

Dear Freedom of Information Act Officer:

This is a request under the Freedom of Information Act.

I request records of all certifications of qualified trusts; certificates of divestiture; impartiality determinations; notices of disqualification; recusals; screening arrangements; waivers and all other ethics-related records filed by and/or given to Gregory Sopkin.

These documents would likely be prepared under 18 U.S.C. Â§ 207; 18 U.S.C. Â§ 208; 5 C.F.R. Part 2634; 5 C.F.R. Part 2635; and 5 C.F.R. Part 2641, as well as be in the care of the Designated Agency Ethics Official. Please do not consider this individualâ€™s OGE Form 278 public financial disclosure reports as responsive records to this request.

In order to help to determine my status to assess fees, you should know that I am a reporter with Bloomberg Environment, and this request is made as part of news gathering and not for a commercial use.

I am willing to pay fees for this request up to a maximum of \$25. If you estimate that the fees will exceed this limit, please inform me first. Please contact me if you have any questions.

Thank you for your consideration of this request.

Sincerely,

Abby Smith

Acting Inspector General  
Office of the Inspector General  
Environmental Protection Agency

Mr. Sheehan,

Pursuant to the federal Freedom of Information Act, 5 U.S.C. Â§ 552, I request the following information:

\_The EPA OIG's fact-finding results regarding Scott Pruitt and the National Mining Association, as described in the EPA OIG's SemiAnnual Report to Congress made public May 30:

âœA congressional request was sent to the OIG to develop a comprehensive factual record for the U.S. Government Accountability Office to use to evaluate whether actions by former EPA Administrator Scott Pruitt or his staff violated (1) the Antideficiency Act and (2) the publicity or propaganda and anti-lobbying provisions of the Consolidated Appropriations Act of 2017. There were concerns that violations may have occurred during an April 2017 meeting between Administrator Pruitt and the National Mining Association. The OIG conducted multiple interviews during this inquiry and provided its fact-finding results to Congress.âœ

I would like to receive the information in electronic format.

I am making this request as a reporter with The Associated Press and this request is made as part of newsgathering and not for commercial use. As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the Act. I will also expect you to release all segregable portions of otherwise exempt material. I reserve the right to appeal your decision to withhold any information or to deny a waiver of fees.

EPA-HQ- 2019- 006094	Ellen Knickmeyer	Associated Press	I ask that you waive any and all applicable fees associated with this request. Release of this information is in the public interest because it will contribute significantly to public understanding of government operations and activities, particularly discussions about potential pardons for individuals ac	5/30/2019

Tetra Tech's client is requesting a due diligence investigation. According to ASTM Standards E 1527-13, property record reviews are required prior to completing this investigation.

Tetra Tech is requesting any records you may have concerning the property of interest. Records may include, but are not limited to:

- Records indicating former operations/owners
- Contamination issues in soil or groundwater
- Leaks or spills of hazardous materials
- Storage or use of hazardous materials
- Monitoring well installations and/or sampling results
- Underground or aboveground storage tanks (tank abandonment, removals, and closures)
- Site remediation/investigation activities
- Environmental violations
- Sewer or septic issues; issued permits
- No further action letters
- Consultations with the U.S. Environmental Protection Agency (USEPA)
- Sites that may be classified as State Hazardous Waste Sites

EPA-R6-2019-006048	Angela Hunt	AEI Consultants	<p>I am looking for the most recent groundwater monitoring reports, site assessment reports, and agency evaluations for the Signetics Corporation site at 9201 Pan American Freeway NE. Site ID: 0600797; EPA ID: NMD000709782. I would like to determine if the release at the site has affected surrounding properties. As clarification to my request, I am looking for records pertaining to:</p> <p>Signetics Corporation  9201 Pan American Freeway Northeast,  Albuquerque, New Mexico 87113</p> <p>The date range I am looking for is between 2005 and 2008. That is when a reported closure was given to the facility by the EPA. I believe the closure was granted in 2006 or 2007. The EPA ID is NMD000709782. The information I obtained is from an EDR database and indicates that there was groundwater contamination at the site but that the current human exposures are under control and that the corrective action process has been terminated. I am specifically interested in seeing the most recent groundwater and (if available) soil vapor monitoring that took place at the site (ideally with maps) so I can determine if the adjacent property to the west of the site was impacted by groundwater contamination and or vapor migration. Am only looking for publicly available information and no CBI.</p> <p>In addition, as recommended, I would like to increase the fee commitment to \$55.</p>	5/29/2019

Any and all documents from and after September 1, 2018, regarding the Craft Turney Water Supply Corp., or Arrington Lumber & Pallet Co., including but not limited to communications with the Texas Commission on Environmental Quality or other Texas state or local authorities. See attached supporting document and the following clarification. In late September 2018 Craft Turney Water Supply Corp.'s water system suffered a line break. This may or may not have led to a backflow occurrence in its system. I have attached a public notice which referenced EPA's involvement in the investigation of this incident. This document prompted me to file this PIA request with EPA. I am requesting documents regarding the EPA response to this line break incident which involves a public water supply. TCEQ ID numbers, as follows:

Craft Turney WSC: CN600646939, RN101202356, PWS ID No. 0370016, CCN 10800

505 SE Loop 456, PO Box 1616, Jacksonville, TX 75766

Arrington Lumber & Pallet: CN 601095060; RN 101991834

PO Box 1898 Jacksonville, TX 75766

The date range of records requested is Sept. 1, 2018-May 24, 2019. Likely authors/individuals at Craft Turney Water Supply Corp. include but are not limited to: John Hawkins, President, Ben Hicks, Maintenance Employee, William Cannon, Field Supervisor, Vaughnie Hataway, Operator, Rhonda Briggs, Manager, Justin Blount, Maintenance Employee, Monica Fisher, Utility Billing. Likely authors/individuals at Arrington Lumber & Pallet Co. include but are not limited to: Brian Gorham, Kyle Arrington, and Kent Kirkpatrick. Likely authors with TCEQ include but are not limited to: Megan Hamilton, Ross Morgan, Cara Fisher, Leroy Biggers, Kevin Glanton, Andrea Morrow, and Clayton Nicolardi. I am requesting publicly available information only, excluding CBI. I also wish to obtain any violation information or documents associated with the incident referenced from the EPA Region 6 Compliance Assurance and Enforcement Division.

Original Description (2/20/19): Per discussion with Region 3, HQ OECA-OC-ETDD-IUTC has agreed to respond to this FOIA since the information requested, while embedded in the publicly accessible databases, cannot be pulled by the public. I am requesting info about federal facilities in Washington DC, Idaho, New Mexico, NH & MA with both individual NPDES permit coverage & general permit coverage (MS4, Industrial & Construction stormwater) Specifically, the info we are requesting is the name & telephone number & email of the signatory or "responsible party". Each permit number to also include the mailing address. Data in an excel or CSV file.

Modified Description (4/9/19): Ms. Pierson, I am writing to follow up on our call this afternoon to discuss your above-referenced FOIA request re: NPDES industrial stormwater permits held by federal facilities in DC, Idaho, New Mexico, NH & MA. As we discussed on our call, the specific records you are seeking are those which provide the following info about the federal facility permits in question: permit number, facility name, signatory, signatory's title, signatory's contact information (mailing address, email address). If EPA maintains a document (e.g., Excel file) that compiles this info for NPDES industrial stormwater permits (specifically for federal facilities, or which can be filtered for federal facilities), you are requesting that record. If EPA does not have such a record specifically compiling this data, the alternative records you seek to gather this data are notices of intent and/or the permits themselves. On our call, you also agreed to extend the due date for this request to April 30, 2019. Thank you for your understanding. If my takeaways from our call, as described above, are inaccurate, please let me know. Otherwise, we will continue processing your request as clarified above. Thank you, Ava Azad

Quemetco, Inc. (Quemetco) operates a secondary lead smelting facility located at 720 South 7th Avenue, City of Industry, California, 91746. On November 13, 1992, RSR Corporation's Gerald Dumas submitted a request on Quemetco's behalf to then-EPA Region IX Administrator Daniel W. McGovern for a two-year variance from the secondary containment requirements for Quemetco's containment building pursuant to 40 CFR section 264.1101(b)(4) (see first attached letter). On August 2, 1993, then-EPA Region IX Hazardous Waste Management Division Director Jeffrey Zelikson sent a letter to Gerald Dumas granting the two-year variance (see second attachment). In its letter, EPA required Quemetco/RSR to maintain information on file regarding (1) the removal of liquids from the secondary containment system and (2) a plan describing procedures to address releases into the secondary containment system.

We are requesting the following records:

- (1) Any and all documentation (including correspondence and other submittals to or from EPA) pertaining to Quemetco's variance from the secondary containment requirements;
- (2) Any and all documentation (including correspondence and other submittals to or from EPA) pertaining to the Quemetco containment building's leak detection system; and
- (3) Any and all documentation (including correspondence and other submittals to or from EPA) pertaining to the operation of the Quemetco containment building's secondary containment system.

I am writing on behalf of the Democratic National Committee to request from the Environmental Protection Agency the following records:

â€¢ All travel vouchers generated by or on behalf of Andrew Wheeler, from October 1, 2018 to March 31, 2019. The records I request are similar in content and purpose to GSA's SF-1012 "Travel Voucher" used to record dates, destinations and costs of official business travel.

â€¢ All requests for authorization for use of a government-owned or private, non-commercial aircraft generated by or on behalf of Andrew Wheeler, from October 1, 2018 to March 31, 2019. The records I request include, but are not limited to:

- o All requests for authorizations
- o All authorizations granted
- o All records indicating the destinations, dates of use, purpose and cost of each trip authorized

The Democratic National Committee is not a commercial requester. We understand that there might be costs associated with this request. We would request a waiver of fees and ask for you to contact us by e-mail at [researchinfo@dnc.org](mailto:researchinfo@dnc.org) before incurring charges if this request will be in excess of \$50.

We would appreciate your communicating with us by e-mail at [researchinfo@dnc.org](mailto:researchinfo@dnc.org) rather than by mail or telephone, if you have questions regarding this request. However, if you would like to discuss this request by phone please email us at [researchinfo@dnc.org](mailto:researchinfo@dnc.org) and we will provide a number at which we can be reached.

Good afternoon,

We are working on a project located on Wiley Street in Columbia, South Carolina. We need to track down the Brownfield information for a project that was assessed at 1917 Wiley Street, in order to make certain that we can build residential on this site. HUD states that:

According to NEPAssist this project was assessed in March 2018 as part of Brownfield Assessment Cooperative Agreement with the City of Columbia and EPA. It is likely that an assessment was completed and found no contamination present.

HUD is requiring that we supply information to prove that we can do this residential project. I believe it would either be found in the Brownfield agreement or the actual results of the assessment. We tried a FOIA request with DHEC (South Carolina's Department of Health and Environmental Control) and DHEC responded with the following:

This is to advise you that the Freedom of Information Office could not locate any files on the referenced subject, company individual, and /or address as submitted.

If you feel that the information you requested may be found under another name or description, please submit the additional information by fax (803) 898 3816 or by e-mail to [foi@dhec.sc.gov](mailto:foi@dhec.sc.gov) referencing the above Request Number.

If you have any questions or require further assistance, please contact our office at (803) 898 - 3882. This request is now closed.

Can you possibly help us get this resolved so that we can move forward? Any assistance/insight/direction would be appreciated.

Thank you,

Andelyn
